

# I would like to learn

I would like to learn photography.

A lot of the girls would like to learn dancing.

Some of the boys would like to learn sailing.

Something that I would like to learn is underwater activities.

Last but not least some people would like to learn how to help our environment.

# A right to learn

Over 80 million children are currently out of school.

Some children live too far away from their nearest school.

Education is the most powerful weapon you can use to change the world.

By Shelby

# How I learn best

When someone explains something really well.

Someone who breaks down the lesson and not in one lump.

When you can go into groups and hear what everyone else has to say.

A practical lesson and not out of a book which you are given to copy.

Somewhere where it is nice and peaceful and where you can hear yourself think.

# My Ideal Teacher

A Teacher who makes learning enjoyable.

A teacher who challenges you.

Teacher who explains things step by step.

A teacher who doesn't just go to one person but goes top everyone.

A teacher who encouragers you in what you are doing.
